The Little Pub Group manage six pubs throughout Hampshire including two within the New Forest; the Foresters Arms in Frogham and the Waggon and Horses in Lymington.

Both of the New Forest based establishments offer a generous 30% off Monday lunch through the Brand New Forest card scheme making it a popular destination for card holders at the start of the working week.

Through their individual social media accounts, the pubs have been regular promoters of not only the Brand New Forest Campaign itself, but also other independent businesses located nearby.

Through their extensive menus, both establishments make an effort to source their ingredients from local businesses and suppliers wherever possible. These include Loosehanger Cheeses, Owton's Butchers, Alresford Watercress and supplies from Hockey's Farm Shop in Gorley. This fact is prominently promoted throughout.

The Foresters Arms at Frogham have made efforts to engage with the Exercise Local Campaign by publishing a special circular walk which starts and ends at the pub and takes in the surrounding countryside.
