From beginning in hospitality seven years ago, Jeremy has progressed from being a trainee at Brockenhurst College to the position of Assistant Manager at Careys Manor. In that time, he has worked in a wide range of positions throughout the business including reception, kitchen, Le Blaireau and the Bar. This provided a variety of experiences including handling guest complaints, health and safety and staff welfare.

During his time with Careys, Jeremy has attended the World Skills event in Bournemouth where he completed various front of house tasks, such as cocktail making and advanced table lay out. He achieved a first in his category and won four medals becoming the first person at Brockenhurst College to win a prestigious gold medal.

Since his promotion to Trainee Manager Jeremy has been tasked with developing initiatives and ideas in many areas across the business. One such project was developing the sales and guest satisfaction within the hotel bar. Working closely with the bar team, he implemented a research programme to develop new and exciting cocktails and refresh the product range. By making sure that they also had highly trained and experienced staff in place, bar sales have consistently increased while they have also seen some very positive reviews from customers on websites like Tripadvisor.

Over the longer term Jeremy hopes to continue his development and continue his progress within the Greenclose Group. Ultimately his aim is to run a successful hotel business of his own.
