

The Hampshire County Council Award for Contribution to the New Forest Community

Bronze Design Ltd. & fwdesign Ltd.

Business Contact: Bronya Szatkowska & Roger Crabtree

Bronze Design is a design company who specialise in graphic and web design. They are passionate about delivering the key messages of the New Forest through their design work and are involved in many different campaigns in the community. They support messages such as encouraging visitors to not feed the ponies and pick up their litter etc. They have a shop on Brockenhurst High Street so that their customers can come to them.

They work with local businesses and partnerships such as the local primary school where they have helped to design the logo, newsletter, poster and marketing of some of their fundraising events. They have also assisted in raising much needed funds for school trips, visits and other activities totalling over £55,000 in the last five years. They have also supported the design work of Brockenhurst Football Club, BrockStock and Brockenhurst Parish Council.

Their 'Welcome to Brockenhurst' booklet includes a brilliantly clear and easy to read map to help visitors and guests navigate their way around the village. They have included in this all of the businesses along the High Street including local pubs, restaurants and the train station. On the flipside of this booklet local businesses have an advertisement which includes their logo and a brief description about what it is they do.

Bronze Design saw the benefit of helping the community and although they are a business and need to make money they undertake some of their work free of charge. They see Brockenhurst as a unique place to live and work and want to look after the area for future generations.
