

# The New Forest National Park Authority Award for Outstanding Contribution to the National Park

## New Forest Aromatics

Business Contact: Debbie Mulhern

NEW FOREST  
a r o m a t i c s

Based in Brockenhurst, New Forest Aromatics has been operating since 2011 and creating natural products for customers and their home.

New Forest Aromatics tries to source as much as they can locally and uses lots of local businesses to make their products such as New Forest Spring Water and New Forest Marque. As well as this, the business grows some of their more natural products such as lavender and uses recyclable material. Businesses all over the New Forest District use New Forest Aromatics products such as hotels, pubs and restaurants.

The business tries to be as eco-friendly as possible and stresses to their customers the importance of refilling where they can instead of buying the whole product again, which includes the container. The business has also encouraged customers to use other alternative materials instead of plastic.

New Forest Aromatics is proud to be from the New Forest and engages with people to try and encourage them down to the area. The business is currently looking for more collaboration with other businesses and projects in order to grow. They already work on the Help for Heroes project as well as the Carbon Footprint project where they plant a tree every month to help the environment.
